Corporate Introduction

GIRI ISMOYO CRAFT

Giri Ismoyo is a natural fiber woven craft industry located in Yogyakarta, Indonesia. This company was founded in 2018 and has continued to grow until this year. The founder of Giri Ismoyo is Sunu Agung. The reason he founded this company was because of the many problems related to plastic waste which is the most pollution in his area. He also hopes that his products can be one of the solutions to reducing waste in his area. In addition, there are many craftsmen in his area but have not been able to market their products, finally they work together to sell their products to Indonesian and foreign buyers.

At the Giri Ismaya company, we use natural fibers in making products. The natural fibers we use are Banana stems, Water Hyacinth, Seagrass, mendong, Raffia and many more. The purpose of using these materials is to highlight the natural impression in the room. The products we produce include Mirrors, Baskets, Lampshades, Furniture, Walldcor, Placemates and other decorations

Our Product is also Inspired by Indonesia's rich cultural heritage and natural beauty, we are committed to blending tradition with contemporary design. Our artisans utilize local materials and techniques passed down through generations, ensuring that every product carries the essence of Indonesia's artistry.

VISION

To become a globally recognized brand that celebrates Indonesia's craftsmanship, promoting sustainable and ethical handmade products.

MISSION

- 1. Preserve Culture:**
Promote and preserve Indonesia's traditional arts and crafts by empowering local artisans.
- 2. Sustainable Production:**
Prioritize eco-friendly materials and processes that support the environment.
- 3. Global Reach:**
Expand the international presence of Indonesian handicrafts through unique, high-quality products.
- 4. Customer Satisfaction:**
Provide exceptional products and services that exceed customer expectations.

OUR SERVICE

1. Custom Design and Crafting

Giri Ismaya Craft provides customization services, allowing customers to choose designs, sizes, colors, and patterns that suit their needs or tastes. In addition, Craftsmen can work directly with customers to understand preferences and create unique products that reflect the customer's personality or vision.

2. Wholesale and Bulk Orders

For businesses and retailers, we provide wholesale services with the ability to produce high-quality handcrafted products in larger quantities.

3. After-Sales Service and Product Maintenance

Considering that craft products are often made from natural materials, Giri Ismaya Craft provides a care guide to ensure the products remain durable and in good condition. and In the event of damage or problems in use, Giri Ismaya Craft offers repair or replacement services for certain products as part of its commitment to quality.

OUR QUALITY CONTROL

At Giri Ismaya Craft, quality is our top priority. We implement a strict Quality Control process at every stage of production, from raw material selection to the final product. Each product goes through a series of checks to ensure there are no defects and that every detail meets our high standards. Our trained team performs manual checks to ensure the consistency, durability, and aesthetics of the product. In addition, we also maintain environmentally friendly practices in the production process, ensuring that the products we produce are not only high quality but also ethical and sustainable. and a final inspection ensures that the products are free from defects and ready for delivery.

“ Our Products ”

Sustainability

The materials we use in our materials are natural fibers

Finishing

After the product is finished, we always spray it with anti-fungal so that the product lasts longer

Quality Product

We always quality control products so that the products we send are the best quality products

Material

We always check the materials first before production to get the best product quality

Our Craftman

experienced skilled craftsmen

At Giri Ismaya Craft, our skilled artisans are the heart of our company, bringing generations of expertise and dedication to every product we create. These artisans come from various regions of Indonesia, each with unique skills passed down through their communities, from weaving to decorating. They are passionate about preserving traditional Indonesian art and are deeply committed to perfecting their craft.

Our artisans work meticulously to ensure that every detail meets the highest standards of quality and authenticity. Through years of experience and a deep understanding of local materials and techniques, they create pieces that embody Indonesia's rich cultural heritage while meeting modern aesthetic and functional standards.

At Giri Ismaya Craft, we believe in supporting our artisans not only as employees, but as partners in our mission. We provide fair wages, ongoing training, and a collaborative environment where they can develop their skills and explore new design ideas. In doing so, we celebrate and preserve their extraordinary craftsmanship, bringing the beauty of Indonesian culture to the world.

Skilled Hands, Timeless Creations.

The slogan describes the craftsmanship of the craftsmen who produce high-quality works of lasting value. With their skilled hands, each product is created with dedication and beauty that reflects deep craftsmanship and tradition.

Production Capacity

Work with a Focus on Quality

In processing our customer products, usually in 1 invoice we will provide a production time of 2 months. the length of production depends on the number of requests in 1 invoice. within 2 months we can produce :

1. Baskets Product

In 2 months we can produce 400 basket sets (Set Of 3). Depends on what motif is being worked on

2. Wallddecor

In 2 months we can produce 250 Set (Set Of 3). Depends on what motif is being worked on

3. Lampshade

In 2 months we can produce 150 PCS (Medium Size). Depends on what Material is being worked on.

4. Place Mate

In 2 months we can produce 1500 PCS (D 30 cm). Depends on what Material is being worked on.

* for other products, it will usually be communicated first with consumers because some products have different sizes and different difficulties.

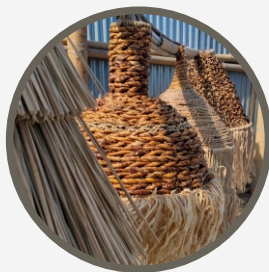

Our Sustainability

One Handwoven for a Greener Future

At Giri Ismaya Craft, sustainability is at the core of everything we create. Our products are thoughtfully designed and crafted using eco-friendly, locally sourced materials such as Banana Bark, rattan, Seagrass, Waterhyacinth and natural dyes. By prioritizing renewable and biodegradable resources, we ensure that our creations not only reflect the beauty of Indonesia's craftsmanship but also contribute to preserving the environment.

Each piece is produced with minimal waste, using traditional techniques that respect nature and reduce carbon footprints. Our commitment to sustainability extends beyond materials to include ethical practices that support local artisans and their communities. We aim to empower these talented craftsmen by providing fair wages, safe working conditions, and opportunities for growth.

When you choose our sustainable products, you're not just purchasing a beautiful item—you're supporting a vision for a greener planet and a thriving artisan community. Together, we can craft a future that values both artistry and the environment.

Production Flow

A. Material

The Raw materials that will enter the production warehouse must pass Quality Control, we must ensure that the materials that enter the production warehouse are the best quality materials. After the materials pass the QC process, we then distribute them to our craftsmen

B. Production

There are 2 Types of production at Giri Ismaya Craft, Namely external production and internal production:

1. External Production

External Production is a craftman who works outside the Giri Ismoyo warehouse. they are housewives who usually work on our product at home. in each region we devide the into groups so that our communication is more effective usually we will deliver the materials we have selected to the group leader and after the product is finished we will pick it up at each house of the craftman leader

2. Internal Production

Internal Production is a Giri Ismaya employe who responsible for finishing products and product quality control. in additional, internal production is also responsible for making buyer sample product, before we provide materials to external craftsmen. we usually provide a sample of the product that will be worked on by internal production first, and later it will be sent to external craftsmen as a reference for deisgn

C. Quality Control 1

Products that have taken from the craftsmen will enter quality control 1 process. in this Quality Control 1 process, we check the product's durability, product color, size, and weaving results

D. Finishing

Products that have entered the QC 1 stage will then enter the Finishing stage. This finishing stage is spraying anti-fungal and color fluid to produce natural colors.

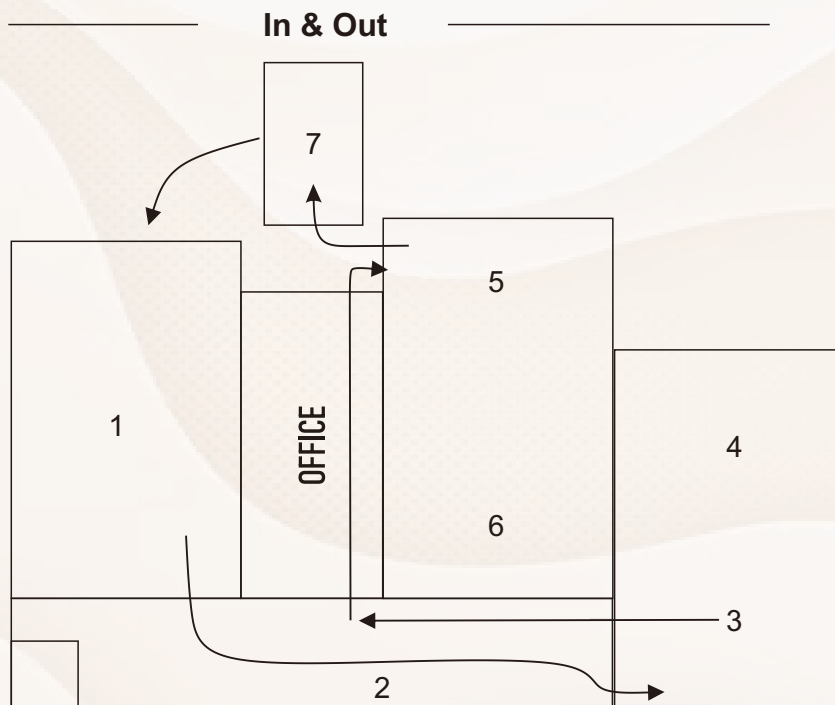

E. Quality Control 2

After the finishing stage is complete, the product then enters the QC 2 stage to check the quality, dryness and strength of the goods before packaging.

F. Packaging

The last stage is Packaging. We ensure that the products that go into the cardboard are our best quality products, we also facilitate Silica Gel to maintain the humidity of the product
